Reflections...

The MIST Newsletter is a quarterly review, highlights various activities and events lending variety and distinct flavor to the issue. CONVERT YOUR ANGER INTO A RESOLUTION:

"Our greatest weakness lies in giving up. The most certain way to succeed is always to try just one more time." There are two kinds of people in the world, some are busy cramming the history, some are busy creating the history. What you have got, today's formula is you are not supposed to cram the history but you are supposed to create the history. The one powerful ingredient with which you can create the history is monomaniacal madness.

The stubborn man only makes history. It is very important to enlarge your abomination. What's the way?.... The way is converting anger into a resolution. The people who created history were angry that time and they convert their anger into a resolution. They believe that "Success is the actual revenge".

Ratan Tata also took his revenge from Bill Ford in the same way. Once Ratan Tata went Ford's headquarters in Detroit to request Bill Ford to buy his Tata motor passenger vehicle division because it was not doing well. That day Bill Ford insulted him very much and said "we are doing favor on you by buying your vehicle, if you don't know how to make a car then why did you come into this business". Ratan Tata feels very bad when he heard this. On that night Tata was only thinking what to do, this is happened wrong with us. Tata returns Mumbai that night itself and start spending more time on the passenger vehicle. He became stubborn and convert his anger into a resolution.

After a few time, Tata motors was reviving and growing on the other hand Bill Ford's company came into the losses. Now Tata group send a proposal to Bill Ford that we will buy your company. The same way the team came from Detroit to Mumbai and in Mumbai's headquarters Bill Ford said Ratan Tata that "By buying our Jaguar Land rover you are doing favor on us". Ratan Tata happily bought their car. Now I have a question for you that what is your Abomination. Challenge yourself that what is your monomaniacal madness.

Someone asked Satya Nadella that what you see while appointing a person in Microsoft, Satya Nadella say two things "Clarity and Energy". The person who has Clarity with Energy he creates the history. When you convert your anger into a clear resolution you do very well. When you use your total energy to achieve that Clarity you will get the best results. So use your anger in a useful manner.

POEM BY SYED OMAIR AHMED

Life is good they say..

But I have a question..

Why is everybody stuck in depression?

Everywhere Oppression.. and a lot of Suppression..

How difficult it is to live the day..

Fighting upon whose God to pray

Subjected to Repression..

No freedom of Expression.

It's a heart breaking apocalypse

But there isnt an evacuation

Berserk Crazy Concrete Jungle

Where common people get Strangle!

What is the path we gonna lay?

Where we heading, We need a way!!

It's time for realization..

Let's take this mission..

Let's tackle the situation..

Bring up a solution

No need of any permission

You are your own champion

You are strong enough.. Be a Revolution..!
